5. No. of participants: Around 100
6. Brief Description: Title of the talk was "Environmental aspects of Health & Disease". The event began with the welcome address and short introduction of the speaker by Head of the Department, Dr. Chaitali Banerjee. The students and faculties of college participated in the seminar and interacted with the speaker. After the interactive session, the vote of thanks was delivered by Mrs. Ranita Bose.
7. Outcomes: The talk specifically emphasised on the different toxicant prevailing in the environment. Their potential role in altering different parameters of the body. Gradually he emphasized upon Tributyltin. Considering the CBCS curriculum defined by the University of Calcutta, he briefed about different techniques and phenomena included in the syllabus and correlated their implications at the laboratory set-up. This was a classic attempt to initiate critical thinking and research analysis in the mind of young students.
