- 7. Outcomes:** Our students were highly enriched and engaged with these seminar preparations during the pandemic. Toward the end of the pandemic outbreak when we were bound to stay at home after a small relief/ offline class, the students were confused state of mind about their academic activity that was compromised throughout the pandemic period. Hence this seminar made a bridge between themselves and with teachers when preparing in groups for each seminar topic. They have chosen topics that have huge physiological importance to improve their knowledge in each aspect and also enlighten others about the same.
