

Activity of 06/06/2022

Asserting the digital platform, Department of Botany, VCFW, Kolkata organized a departmental seminar on 06/06/2022 from 4pm to 5pm. The seminar conducted was online mode with a g-meet link where all the teachers and students were present numbering 88 participants.

It was an impressive talk about the causes, affects and future impact of arsenic poisoning.

Outcome: The students were promoted from the talk because of vast knowledge about the microbes present in the soil and how it can be helpful to overcome arsenic poisoning. Moreover, how we can reduce the loss of life and lessen the impact of disaster. All the questions raised in the student's mind were solved during the interaction with the speaker.
